

DIInstaller Version 2.7.0 Release Notes

Released: November 28, 2025

These release notes apply to DIInstaller version 2.7.0. The release notes summarize new features and anomalies in this release.

New Features

- [507950] Add a 达人库 button to provide quick access to the DIAStudio Knowledge Base website, which is currently only available in Simplified Chinese.
- [484681] Support online FAQs, including new menu and submenu items to provide more resources for you to search.

Anomalies

Corrected Anomalies

- [547610] Failed to update the patch version of the software. First identified in DIInstaller version 2.6.0.
- [546910] Failed to update DIADesigner-AX from version 1.8.0 to 1.9.0. First identified in DIInstaller version 2.6.0.
- [522256] Failed to install DIADesigner-AX due to a Diagnosis tool error (ExitCode -1073741819). First identified in DIInstaller version 2.5.0.

Known Anomalies

- [544434] Failed to open DIInstaller if using the Palm input method version 3.2.7.1010. First identified in DIInstaller version 2.6.0.
Workaround: Change to the system default input method or upgrade Palm to version 3.2.7.1030.
- [543009] Failed to install DIADesigner-AX if another version of CodeMeter Runtime is installed (ExitCode 1603). First identified in DIInstaller version 2.6.0.
Workaround: Uninstall CodeMeter Runtime Kit from the Control Panel and then reinstall DIADesigner-AX.
